HomePage

Industries & Domains

- Financial
- Retail
- HealthCare
- Telecommunications
- Manufacturing
- Banking
- Oil & Natural Gas
- Insurance
- Marketing

Big Data

Data Warehousing

- (
 - Real time/batch
 - talk about onprem+cloud strategy,
 - sql/nosql
 - Structured/unstructured)

Business Intelligence

- Reports & Analytics
- Dashboards
- Visualization
 - (Tableau,
 - Looker,
 - Qlik,
 - Quicksight,
 - Node.js)
 - Geospatial visualization

Real time (IoT)

- (IoT,
- Stream processing
-)

Data Science

Predictive Analytics

- Customer 360
 - (graph database,
 -)
- Intelligent Call Routing
- Ad optimization
- Revenue Optimization
- Customer Lifetime Value
- Forecasting
- Churn Models

Big Data

- Data Warehousing
- Business Intelligence
- Real time (IoT)

Data Science

- Predictive Analytics
- Reinforcement Learning
- Deep Learning

Other Services

- Robotic Process Automation
- Public Cloud Migration
- Devops
- Block Chain
- Training

- Upsell & CrossSell Models
- Customer Segmentation
- Customer Journey Mapping
 - (touchpoint optimization,
 - Root cause analysis,
 -)
- Marketing Campaign Optimization
- Price Optimization
- Financial Risk Modeling
- Scenario Optimization
- Simulations
 - (markov chain)

- Reinforcement Learning
 - Recommender Systems
 - Augmented Intelligence

- Deep Learning
 - Sentiment Analysis
 - Anomaly Detection
 - Audio transcription
 - Image recognition
 - NLP
 - Chatbot

Other Services

- Robotic Process Automation
- Public Cloud Migration
 - (Amazon AWS
 - Redshift, EKS, EMR, Glue, Dynamo, RDS(Aurora,MySQL, PostgreSQL), Lambda, SageMaker, Athena, Spectrum, IoT, Kinesis
 - Microsoft Azure
 - CosmosDB, AKS, IoTHub, EventHub, Sql DataWarehouse, HDInsights, SignalR
 - Google Cloud
 - GKE
 -)

- Devops
 - (Docker,
 - Kubernetes,
 - Configuration Management
 - Chef, Puppet, Ansible, SaltStack
 - CI/CD
 - Jenkins, Artifactory
 -)

- Block Chain
 - Ethereum, Smart Contracts, Neo

- Training
 - (online - pro-elearning.com,
 - Onsite, Paired Programming)
